BRIEF SUMMARY

- A Tech enthusiast with skills in web development, Python, and SQL. Experienced in creating user-friendly applications using HTML, CSS, and Docker. Skilled in solving problems, testing APIs, and using object-oriented programming. Eager to contribute to software development projects.

EDUCATION

Sri Sivasubramaniya Nadar College of Engineering (SSN) <i>B.Tech. in Information Technology</i>	2021 – 2025
Vivekananda Higher Secondary School, Namakkal <i>12th Grade (TN State Board)</i>	2021
Sivabakkiam Muthusamy Matric Higher Secondary School, Namakkal <i>10th Grade (TNBSE)</i>	2019

INTERNSHIPS

CoderOne <i>Web Developer</i>	Jun 2024 – Jul 2024
– Developed and designed responsive and user-friendly interfaces for a job board and an online quiz maker.	

PROJECTS

Automatic Resume Analyzer	2024
– Skills: Python, Flask, NLTK, spaCy, Pyresparser, MySQL, Named Entity Recognition (NER), Keyword Matching, Git, GitHub, Docker	
– Developed an AI-powered Resume Analyzer to streamline candidate screening. Features include resume parsing, keyword matching, skill evaluation, and ranking system.	
– Built using Python, NLP, Machine Learning, Flask, and MySQL. Integrated Git, GitHub for version control and Docker for deployment. Improved hiring efficiency by automating resume shortlisting.	
Portfolio	2024
– Designed and developed a responsive personal portfolio website to showcase my skills and projects.	
– Built using HTML, CSS, and JavaScript with animations from ScrollReveal.js and Typed.js.	
– Ensured mobile responsiveness with CSS media queries and an interactive navigation menu.	
PG Accommodation System	2023
– Skills: HTML, CSS, JavaScript, PHP, MySQL, XAMPP, Priority Queue, Splay Tree, Git, GitHub	
– Developed a web-based PG Accommodation Management System for seamless tenant-landlord interactions. Features include user authentication, property listings, search filters, booking system, and payment integration.	
– Built using HTML, CSS, JavaScript, and MySQL. Integrated Git, GitHub for version control and Docker for deployment. Enhanced efficiency in PG management with a user-friendly interface.	

SKILLS

- **Languages:** Python, JavaScript, PHP, MySQL
- **Concepts:** Data Structures, Object-Oriented Programming
- **Web Development:** HTML, CSS
